

EUROPEAN MOLECULAR BIOLOGY CONFERENCE
CONFERENCE EUROPEENNE DE BIOLOGIE MOLECULAIRE
EUROPÄISCHE KONFERENZ FÜR MOLEKULARBIOLOGIE

EMBC/23/7 E
Date: 26 May 2023
Original language: English

54th Ordinary Session, Part I

15th Finance Committee meeting

Scale of Contributions 2024 - 2026

EMBC agenda item 16

Finance Committee meeting agenda item 9

Conference is requested to to approve the proposed scale of contributions for the years 2024 – 2026.

Voting requirement: Two-thirds majority of all Members
(Art. VII.1, Agreement)

Scale of Contributions 2024 - 2026

1. Article VII. 1 Agreement, states:

Each Member shall contribute both to the expenses resulting from the realisation of the General Programme and to those relating to the functioning of the Conference, in accordance with a scale which shall be decided upon every three years by the Conference by a two-thirds majority of all the Members and shall be based on the average net national income at factor cost of each Member for the last three preceding years for which statistics are available.

During the 27th ordinary session (CEBM/96/9 and CEBM/96/16) it was agreed that the calculation of the scale of contributions should be based on the data available to the secretariat on 1 April. The most recent statistics available for all EMBC Member States on that date were those for the years 2018, 2019 and 2020.

2. Depending on the decision on Latvia's EMBC membership (EMBC agenda item 11), Table I.a shows the scale of contributions (scenario including Latvia), Table I.b shows the scale of contributions (scenario without Latvia), calculated to four decimal places, to be applied by the Conference for 2024-2026, together with the net national incomes at factor cost in US\$.

The data in Table I.a and Table I.b are derived from the information provided in Table II and III. Table II shows the market exchange rates between national currency units and the US\$, and Table III shows the net national incomes at factor cost in the national currencies.

3. The statistics used were obtained from the OECD (National Accounts of OECD Member States 2014 - 2021, Vol. 2022/2), the statistical database of EUROSTAT (Malta) and the World Bank (Croatia, Montenegro).
4. Latvia has applied for a rebate usually given to new member countries for the first three years. EMBC/23/6 Annex II shows the impact of a one-third deduction of Latvia's membership contribution distributed among the remaining member states.
5. At their meeting on 26 June 2023, the Finance Committee considered the proposed scale of contributions for the years 2024-2026 and will have formed a recommendation to the Conference.

Finance Committee is requested make a recommendation to EMBC on the proposed scale of contributions for the years 2024 – 2026.

Conference is requested to approve the proposed scale of contributions for the years 2024 – 2026.

Voting requirement: Two-thirds majority of the members present and voting (Art. IV.3.g, Agreement)
